

ASTRONAUT CREW PATCHES

During the individual missions, we offered the Astronaut Crew Patches and it proved to be a very popular item. Most have been sold out for some time. Since increased interest has developed in Space Shuttle, we have had requests for these Mercury, Gemini, Apollo, Skylab and Apollo Soyuz patches. We have tracked down a supply of these and offer them in either complete sets or on an individual basis. The complete sets are in short supply due to an uneven quantity on some of the ones such as Glenn, Shephard, Apollo 1 and Apollo 11. We will fill them all to the best of our ability and stock.

Commemorative 3" Size Patches

If complete sets wanted, order as priced below. If individual patches wanted, just check picture of patch, total number and multiply by \$1.25 each.
