

AVIATION & SPACE MEMORABILIA

Lot 177

1970s-2000s MASSIVE SHUTTLE COVER HOLDING

Enormous holding of well over 45,000 covers from a deceased space cover dealer in multiple shoe-boxes contained in 21 cartons. Most have printed cachets, unaddressed, with big duplication from many STS Missions including some related to STS-51L - the Challenger disaster. Lot includes Launch, Mission, Anniversary, Crew and Hubble related covers, as well as ALT related, NASA experimental flight covers of the 1970s, early Mission covers, and many thousands of covers with NASA "Local Post" frankings - both as individual stamps and as postal stationery. This huge stock is an ideal foundation for a business in space covers and will provide a great source of income to the purchaser. Lots of duplication, frequently heavy with many covers in the 25 to few hundred present. Overall condition outstanding with most being very fine and ready to sell. Leave plenty of time to review this hoard!

Est. 4,000-6,000
