P. O. BOX 53545

HOUSTON, TEXAS 77052

February 7, 1980

Dear Stephen:

So nice to get your most interesting letter. It is always a pleasure to hear that someone is making an exhibit of the SCCS material. For years a lot of collectors did not think that Houston was important and some of the "die-hards" still don't. But we have always gone about it in the same manner...letting those that want to collect it to do so and where we can help, we do.

Am sure you have a copy of the NASA Local Post catalog but just in case will include a copy. It will list all of the souvenir sheets along with the dates of issue. You are correct in that SS-2NLP was the last one we had listed but we did have one more that was issued since that went to press. It is a set of four sheets for the 35 new astronauts. Enclosed is a set and please accept it with my personal compliments.

The Express Mail thing is a new one and the Apollo 11 overprint is the first one. You have ordered the #2 and it will be ready shortly. We have received more comments on that one thing than just about anything done by us in a long time.

Best of luck to you on the exhibit and let us know how you come out on it.

Best regards,

A handwritten signature in blue ink, appearing to read 'Harry', with a long, sweeping underline that extends to the right.

Harry L. Anderson
President SCCS
